

# AAYUSHI PURI

+91 7009617238 ♦ Ludhiana, Punjab

[apuri2\\_be21@thapar.edu](mailto:apuri2_be21@thapar.edu) ♦ [meaayushipuri@gmail.com](mailto:meaayushipuri@gmail.com) ♦ [LinkedIn](#) ♦ [GitHub](#)

Permanent Address: 2993, New Tagore Nagar, Ludhiana, Punjab, India

## EDUCATION

- **Bachelor of Engineering in Computer Engineering** **2021-Present**  
**Thapar Institute of Engineering and Technology** **CGPA: 7.51/10.00**  
Relevant Coursework: Data Structures and Algorithms, Machine Learning, Deep Learning, Software Engineering, Data Science, Predictive Analytics, Artificial Intelligence, Operating Systems, Computer Networks, Network Programming, DBMS
- **CBSE Class 12<sup>th</sup>** **2020-2021**  
**D.A.V. Public School, Ludhiana** **Grade: 96.2%**

## TECHNICAL SKILLS

- **Languages-** C/C++, Python, SQL, R
- **Frameworks-** Scikit-Learn, TensorFlow, OpenCV
- **Data Analysis & Visualization:** Matplotlib, Pandas, Numpy
- **Software Packages-** Git/Github, Visual Studio, Matlab, MS-Office
- **Core Competencies:** Machine Learning, Deep Learning, Data Science (NLP, Computer Vision), Data Structures and Algorithms, OOPs, DBMS

## ROLES OF RESPONSIBILITY

- **Youth United Patiala Chapter** **October 2022- August 2024**  
**Content and Documentation Head,**  
Developed and executed a comprehensive event feedback system, gathering insights from over 300 participants. Directed a team of over 80 personnel, implementing a peer recognition system that encouraged collaboration and support. Organized multiple events, improving member engagement by 90%.
- **Hostel Proctor and Buddy Head** **July 2024 – December 2024**  
Served as Hostel Proctor, fostering a positive and engaging living environment by organizing events and leading a committee to maintain discipline and smooth resident-staff interactions. Successfully organized a Diwali night with over 100 participants, demonstrating strong organizational and leadership skills.

## PROJECTS

- **[Crop Yield Prediction](#)** — *Python, TensorFlow, sklearn:*  
Developed a predictive model using MLP and CNN to forecast crop yields based on agricultural features, showcasing application of machine learning in agriculture.
- **[Face Mask Detector](#)** — *Python, MobileNetV2:*  
Created a real-time face mask detection system for high-traffic areas. Utilizes MobileNetV2 for face detection and Keras (TensorFlow) for mask classification, providing automatic feedback with visual cues (green for mask, red for no mask).
- **[LipSyncX](#)** — *Python, PyTorch, Streamlit, OpenCV:*  
Developed a deep learning model for transcribing speech from lip movements in videos, enhancing communication for individuals with hearing impairments. Utilized Transformers and Conv3D for accurate and real-time transcription.

## CERTIFICATIONS AND ACHIEVEMENTS

- Advanced Computer Vision with TensorFlow, Generative Deep Learning with TensorFlow (by DeepLearning.AI)
- Data Visualization in R with ggplot2, Exploratory Data Analysis (by Johns Hopkins University)
- [Kaggle](#) Dataset and Notebook Expert
- Uploaded a Python package to calculate Topsis score on pypi.org, 15+ projects on NLP and Time Series problems

## EXTRA-CURRICULAR ACTIVITIES

- **Accenture North America Data Analytics and Visualization Job Simulation on Forage** **August 2024**  
Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture, cleaned, modeled, and analyzed 7 datasets to uncover insights into content trends to inform strategic decisions. Made a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders.
